541611, 541612, 541618
541690, 518210, 519130

OUR VALUED CLIENTS

Insight. Innovation. Impact. One Team.

Tidal One, a strategic SBA 8(a) joint venture between Tidal Point Consulting and DSFederal, brings over 20 years of combined technology services experience serving more than 20 clients across Health, Defense, Civilian, and Commercial sectors.

We leverage data, AI, and advanced technologies to drive digital transformation and deliver mission-focused outcomes for our clients. Our data science and AI solutions have turned large, complex data into actionable insights for smarter decisions and measurable impact. We have also supported large scale enterprise system implementations, including those for financial management, grants management, and portfolio management.

Capabilities

AI and Data Science

Predictive modeling and advanced analytics
Machine learning and AI algorithm development
Data engineering, visualization, and governance

Business Solutions

Enterprise program and portfolio management
Process optimization
Governance, risk, and compliance support

Digital Services

Application and web modernization
Cloud migration and services
Enterprise architecture and system integration

Health IT

Public health data systems and analytics
Data analytics, monitoring, and risk detection
Data interoperability and integration

Technology & Engineering

Systems design, integration, and testing
Cybersecurity engineering and risk mitigation
DevSecOps
